DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.
2. Claim 14 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Glass is not a phyllosilicate.

Claim Rejections - 35 USC § 102

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
5. Claims 1, 3, 6-11 and 14-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Merck Patent GmbH WO 98/03583, with Solms et al. 6,545,065 serving as its English translation.

Claim Rejections - 35 USC § 103

6. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
7. Claims 1, 3, 6-11 and 14-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Merck Patent GmbH WO 98/03583, with Solms et al. 6,545,065 serving as its English translation.

Double Patenting

8. Claims 1, 3, 6-11 and 14-15 rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-17 of U.S. Patent No. 6,545,065. Although the conflicting claims are not identical, they are not patentably distinct from each other because the pigment combinations and the polymers are identical.

Response to Arguments

9. Applicant's arguments filed 6/29/06 have been fully considered but they are not persuasive. Solms et al. claim three different pigment combinations in claim 1. One of the three is a blend of pearl luster pigment and non-lustrous metal oxide-coated mica pigment and an inorganic platelet-form substrate. The substrate is mica (claim 3). The other two pigments are coated mica (claim 4). It cannot be overemphasized that a reference must be considered in its entirety and that the disclosure of a reference is not limited to specific working examples contained therein. In re Fracalossi, 215 USPQ 569-570 (CCPA 1982). Furthermore the comprising language before and after the consisting of language permits the presence of other pigments. The language of claim 12 would exclude this reference as a ground of rejection.

Allowable Subject Matter

10. Claims 2 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
